## GENERAL CHARACTERISTICS

A line of small-sized cooking equipment designed for those who, even in small spaces, do not want to give up great performance. Made of AISI 304 18/10 stainless steel, finely finished with Scotch Brite satin finish, it has rounded edges and large capacity enclosures; it has 600/650 mm depth and modular width of 400/600/700/800/1000 mm; the series is completed by open, armored or refrigerated base supports.

The equipment is easily modular to one another until it forms a compact, gap-free whole thanks to a leak-covering profile that provides protection against leakage and thus maximum hygiene. High chimneys, ergonomic knobs mounted on a sloping dashboard for easy visibility, give the range ease of use from the first approach.

All models are CE approved.

## TECHNICAL SPECIFICATIONS

The power installed for electric water baths, ensures rapid set-up of the equipment and maintenance of the chosen operating temperature. The basin is designed to hold Gastro Norm bowls up to a depth of 150 mm and is sloped toward the front to allow proper water discharge through the drain cock on the front of the machine.

The equipment is equipped with a safety thermostat, adhesive heating elements and indicator light to signal heating activity. The temperature is adjustable by thermostatic control from 30 to 90°C.

The bain-marie have basins suitable for holding GN bowls with a maximum height of 15 cm, and are complete with perforated false bottom and drain cock.
