SERIE
QUEEN 7

GENERAL CHARACTERISTICS

For those who do not want to give up the quality and solidity of a Queen stove, the Series 7 offers a 700 mm depth and more compact dimensions to fit any room, burners available in various configurations and wattages, enhanced by the refined Scotch Brite finish.

Thanks to its extreme compositional freedom, every composition is possible: you can combine Model i tops with accessorizable oven and neutral bases and hygienic finishes; create customized solutions by matching and attaching equipment back to back, sideways "flush" perfectly sealed, or "bridge" structures, offering high-level solutions that always perfectly meet the chef's needs. As a total guarantee, all equipment that make up a Queen7 kitchen are certified in compliance with international standards, including CE, GAR, AGA and others.

TECHNICAL SPECIFICATIONS

Cooking tanks made of AISI 316 stainless steel (alloy with exceptional resistance to corrosion even at high temperatures) of large capacity (42 liters), molded with radiused inner corners for maximum hygiene and cleanability, equipped with large foam expansion zones, with residual starch discharge device. Safety thermostat in the tank against dry running.

Gas models

Safety pressure switch to prevent empty tank operation.

Stabilized flame burners with piezo ignition of the pilot burner.

Safety tap with thermocouple and progressive adjustment of the power output independently for each tank.

Electric models

Armored stainless steel heating elements inserted into the tank.

Thermal protectors of the heating unit.

Multi-position power regulator, independent for each tank.

Non-accessible internal compartment for total user safety, closed with door for aesthetic alignment. Version with fixed panel closure available.

Manual water loading, without the use of an electrical connection

In the electric version, the heating element can be rotated by more than 90°.

Equipment certified for low voltage directive 2014/35/EU according to the international CB scheme.

Thanks to the jet-proofing certification obtained through specific tests, knobs and under-knobs can be washed at the end of the working day without compromising functionality and safety.

The front bar is a comfortable foothold for the cook; it keeps a safe distance from the worktop and thus protects against accidental collisions with what is resting on the worktops and at the same time the handles.

Technical Information

SPECIFICATION	DATA
MATERIAL	CR1014819
DEFINITION	Q70CP/E800 CUOCIP.E.L.2V.28LT M80 S/CESTI
COMMERCIAL LINE	QUEEN
SUPPLY	ELECTRICS
DIM. WIDTH	800 mm
DIM. PRODUCTIVITY	700 mm
DIM. HEIGHT	870 mm
NET WEIGHT	70 Kg
VOLUME (net)	0.487
PACKAGE LENGTH	840 mm
PACKAGE WIDTH	850 mm
PACKAGING HEIGHT	1170 mm
PACKAGE VOLUME	0,836 m3
GROSS PACKING WEIGHT	83 Kg
STANDARD POWER SUPPLY	380-415V 3N
FREQUENCY	50-60 Hz
ELECTRICAL POWER	11.34 kW
MINIMUM PRESSURE	150
MAXIMUM PRESSURE	500
IP GRADE	IPX5
CAPACITY	50 litri
CERTIFIED MODEL	Q70CP/E800
