BARON 4.0

GENERAL CHARACTERISTICS

From the solid foundation of Baron tradition, comes the new Queen 4.0 kitchen, even more practical, more accessorized, more technological.

An evolution in the field of professional kitchens.

Queen 4.0 is perfectly designed in detail to speed up and simplify every task of preparation, cooking, tidying up, and cleaning in the kitchen, and stand by you every day as a true ally in your work.

TECHNICAL SPECIFICATIONS

Cooking tanks made of AISI 316 stainless steel (alloy with exceptional corrosion resistance even at high temperatures) of large capacity (42 liters), molded with radiused inner corners for maximum hygiene and cleanability, equipped with foam expansion, with residual starch discharge device.

Safety thermostat in the tank against dry running.

Armored stainless steel heating elements inserted into the tank.

Thermal protectors of the heating unit.

Multi-position, independent power regulator for each tank.

Safety pressure switch to prevent activation of heating without water in the tank.

Non-accessible internal compartment for total user safety, closed with door for aesthetic alignment. Version with fixed panel closure available.

Manual water loading, without the use of an electrical connection

In the electric version, the heating element can be rotated by more than 90°.

Equipment certified for low voltage directive 2014/35/EU according to the international CB scheme.

Thanks to the jet-proofing certification (IPX5) obtained through specific tests, knobs and under-knobs can be washed at the end of the working day without compromising functionality and safety.

The front bar is a comfortable foothold for the cook; it keeps a safe distance from the worktop and thus protects against accidental collisions with what is resting on the worktops and at the same time the handles.

Technical Information

SPECIFICATION	DATA
MATERIAL	CR1018329T4W
DEFINITION	QT90CP/E800-T4W CUOCIP.EL.2V.40LT M80S/C
COMMERCIAL LINE	QUEEN
SUPPLY	ELECTRICS
DIM. WIDTH	800 mm
DIM. PRODUCTIVITY	900 mm
DIM. HEIGHT	870 mm
NET WEIGHT	75 Kg
VOLUME (net)	0.626
PACKAGE LENGTH	1000 mm
PACKAGE WIDTH	830 mm
PACKAGING HEIGHT	1170 mm
PACKAGE VOLUME	1,000 m3
GROSS PACKING WEIGHT	86 Kg
STANDARD POWER SUPPLY	380-415V 3N
FREQUENCY	50-60 Hz
ELECTRICAL POWER	17 kW
MINIMUM PRESSURE	150
MAXIMUM PRESSURE	500
IP GRADE	IPX5
CERTIFIED MODEL	Q90CP/E800
