GENERAL CHARACTERISTICS

A line of small-sized cooking equipment designed for those who, even in small spaces, do not want to give up great performance. Made of AISI 304 18/10 stainless steel, finely finished with Scotch Brite satin finish, it has rounded edges and large capacity enclosures; it has 600/650 mm depth and modular width of 400/600/700/800/1000 mm; the series is completed by open, armored or refrigerated base supports.

The equipment is easily modular to one another until it forms a compact, gap-free whole thanks to a leak-covering profile that provides protection against leakage and thus maximum hygiene. High chimneys, ergonomic knobs mounted on a sloping dashboard for easy visibility, give the range ease of use from the first approach.

All models are CE approved.

TECHNICAL SPECIFICATIONS

The multifunction braising pan is the ideal equipment to be used as both a fry-top and a braising pan and is equipped with an AISI 304 stainless steel tank.

Heating is by electric heating element with safety thermostat and operation indicator light.

Drainage of the tank is by means of drain hole of appropriate diameter closed by a stainless steel plug.
