GENERAL CHARACTERISTICS

A line of small-sized cooking equipment designed for those who, even in small spaces, do not want to give up great performance. Made of AISI 304 18/10 stainless steel, finely finished with Scotch Brite satin finish, it has rounded edges and large capacity enclosures; it has 600/650 mm depth and modular width of 400/600/700/800/1000 mm; the series is completed by open, armored or refrigerated base supports.

The equipment is easily modular to one another until it forms a compact, gap-free whole thanks to a leak-covering profile that provides protection against leakage and thus maximum hygiene. High chimneys, ergonomic knobs mounted on a sloping dashboard for easy visibility, give the range ease of use from the first approach.

All models are CE approved.

TECHNICAL SPECIFICATIONS

Neutral elements: available in solutions with and without drawers, they offer the possibility of a usable shelf or work surface wherever you want. The drawer dimensions allow the insertion of GN-sized containers.

Sink, which can be perfectly inserted between cooking elements, gives the availability of applying different faucets according to the habits of the end user.
