SERIE
QUEEN 9

GENERAL CHARACTERISTICS

It is the choice of those who need maximum strength and power. Queen9 is distinguished by its 900 mm depth, a 20/10-thick work surface, double-crown burners, and the use of elegant stainless steel with a Scotch Brite finish.

Details that not only offer maximum functionality and aesthetics, but also take into account the practical and ergonomic needs of those who work.

The extreme freedom of composition allows top models to be combined with accessorizable oven and neutral base units, even with hygienic finishes.

With more than 350 models immediately available in the catalog, Queen9 is already ready to start giving its best.

In addition, all equipment that makes up a Queen9 kitchen is certified in compliance with international standards, including CE, GAR, AGA and others.

Technical Information

SPECIFICATION	DATA
MATERIAL	CR1355419
DEFINITION	Q90VA120 BASE VANO M120 S/PORTINE
COMMERCIAL LINE	QUEEN
DIM. WIDTH	1200 mm
DIM. PRODUCTIVITY	900 mm
DIM. HEIGHT	650 mm
NET WEIGHT	22 Kg
VOLUME (net)	0.702
PACKAGE LENGTH	420 mm
PACKAGE WIDTH	680 mm
PACKAGING HEIGHT	650 mm
PACKAGE VOLUME	1,200 m3
GROSS PACKING WEIGHT	29 Kg
CERTIFIED MODEL	Q90VA120

PRODUCT'S RANGE PLUS

The front bar is a comfortable foothold for the cook; it keeps a safe distance from the worktop and thus protects against accidental collisions with what is resting on the worktops and at the same time the handles.

Thanks to the jet-proofing certification (IPX5) obtained through specific tests, knobs and under-knobs can be washed at the end of the working day without compromising functionality and safety.

Drawers for GN 1/1

Thanks to the jet-proofing certification (IPX5) obtained through specific tests, knobs and under-knobs can be washed at the end of the working day without compromising functionality and safety.
